EDUCATION

University of Guadalajara (CUCEI)
Bachelor's Degree in Computer Engineering
Expected Graduation: 2027

PROJECTS

Manuel Misael Photography Website – React, Node.js

Technologies: React, Node.js, JavaScript, HTML, CSS

Designed and developed a professional photography website for a client to showcase services, portfolio content, and booking information.

- Built a responsive web application optimized for desktop and mobile devices using React.
 - Developed a multilingual interface with dynamic language switching functionality.
 - Implemented interactive galleries, animations, and modern UI components to enhance user experience.
 - Integrated API-based features and contact forms to facilitate client communication.
 - Created a dedicated reservation section (KINNETA) allowing visitors to explore photography packages and submit booking requests.
 - Deployed and maintained the application on a production hosting environment.
-

PiñataStore – Full-Stack E-Commerce Platform

Technologies: PHP, JavaScript, MySQL, HTML, CSS

Academic project inspired by a local business, focused on developing a complete e-commerce solution.

- Designed and implemented a complete product catalog, shopping cart, and checkout workflow.
 - Developed an administrative dashboard for managing products, promotions, employees, customers, and orders.
 - Built and maintained a relational MySQL database supporting inventory, payments, user accounts, and order processing.
 - Integrated online payment functionality for secure customer transactions.
 - Deployed the application on a live hosting environment.
-

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, JavaScript, PHP
- **Web Technologies:** HTML, CSS, React, Node.js, REST APIs
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Developer Tools:** Git, GitHub, Visual Studio Code, Docker
- **Operating Systems:** Linux (Kali Linux, Ubuntu, Debian), Windows
- **Other Tools:** Microsoft Excel

LANGUAGES

- Spanish — Native
- English — B1
